

Bentley Bugle – Community and Church News - 2021 Report

With the exception of the June/July 2020 and the February/March 2021 issues (production of both of these issues was affected by lockdown rules at the time) the production of the Bentley Bugle Community and Church News has continued on a bi-monthly basis over the past year, with a reduced number of pages due to the smaller amount of copy received.

The June/July 2020 issue was cancelled and the February/March 2021 issue was only published on the Parish Council website as well as being distributed electronically to our contributors and to our distribution volunteers.

There was a large reduction in advertising income which was only slightly offset by the reduced printing costs but this has been improved recently due to the efforts of Peter Day our advertising manager. Peter has also taken on the Treasurer post.

We are always willing to offer space to advertisers in the Bentley area and to those offering services to Bentley residents.

The aim of the Bugle is to keep parishioners informed of Church activities and the activities of the many Clubs and Societies in the village.

We would like to thank all our contributors, who provide all the information for each issue of the Bugle; please keep up the good work! Our thanks also to the volunteers who deliver the Bugle to all the properties in the village.

The Bugle can be accessed online via the Parish Council web site
www.bentleypc.onesuffolk.net
